

The FCC should not implement any proposal that would lessen Indiana's Telephone Privacy law protections.

The Telephone Privacy law has almost eliminated the "unwanted telemarketing" calls that we used to get daily (Mon - Sun approx 15 to 20 each day). Currently we only rec 1 - 2 per week. Now when the phone rings it is usually someone we know which is how we prefer it stay.

PLEASE keep the Indiana Telephone Privacy laws the way they are & DO NOT adopt a lower national standard.

Thank you.

Chris Teske
